

UNDSS security update:

Unidentified armed persons hijacked a passenger coach with 12 passengers from Peshawar-Islamabad motorway on March 22,2011 and have taken it to an undisclosed destination. No ransom claims have been made as yet (The News)

Security consideration for IRP-surface travel;

1. All movement especially to KPK through motorway or GT road should be undertaken with extreme care in the wake of above incident
2. Evening travel must be avoided to minimize the chances of falling victim to any such attempts
3. Do not stop unnecessarily while on motorway, if required stop at the designated rest areas
4. Communication while travelling is vital , keep your communication tool functional and stay in contact with the concerned security person
5. Contact security immediately and notify your location if you feel your safety is being compromised

Regards
Farrukh
